Month	Topic	Concept	Activity
June	Ch-1 How Plants reproduce	Students will understand the topic of plants reproduction	Collect the seeds dispersed in four different ways and display them in a box.
July	Ch-2 Living styles in Animals Ch-3 Bones and muscles in our Body	Students will understand the concept of living styles in Animals. Students will understand the concept of Bones and muscles in our Body.	Find out the animals that adapt themselves to their surrounding Move the various parts of your body in different direction and find out that which part is moving and which is not.
Aug.	Ch-4 The Nervous system Ch-5 Health and Diseases	Students will understand the importance of Nervous system. Students will understand the importance of Health.	Observe the hot and cold sensitivity in your body. Go round your locality and watch for ditches with dirty water.
Sep.	Ch-6 Air and its uses	Students understand the concept of Air and its uses.	Find out that what are the different gases present in Air.
Oct.	Ch-7 The moon	Students will learn about the moon	Collect the information about the artificial satellites.
Nov.	Ch-8 Soil erosion and conservation	Students will understand the concept of soil erosion and its conservation.	Pour water from a watering can on top of each of the heaps and observe it.
Dec.	Ch-9 Rocks and mineral Ch-10 Volume weight and Density	Students will understand the concept of Rocks and Minerals. Students will understand the topic of volume weight and density.	Collect different types of rocks try to recognize them. Take a ball of modelling clay and mould it into different shapes.
Jan.	Ch-11 Simple machine	Students will understand the topic of simple machine.	Make a lever by balancing a ruler over a match box.
Feb.	Ch-12 Man and Environment	Students will understand the concept of man and Environment.	Find out where the garbage of your colony is dumped.
March.	Ch-13 Natural calamities	Students will learn about the concept of Natural calamities	Find out where massive earthquakes have occurred in the world

5 -Maths

Month	Topic	Concept	Activity
June	1. Large Numbers	<ul style="list-style-type: none"> - Students will learn the concept of numbers beyond 9,99,999 - Face value and Place value - Comparing and Ordering numbers - Predecessor and Successor - International place value system - Rounding off numbers - Roman numerals 	Make different numbers by flash cards
July	2. Operations with large Numbers 3. Factors and Multiples	<ul style="list-style-type: none"> - Students will learn the concept of addition, subtraction, multiplication and division of large numbers - Problem sums - Students will learn the concept of factors and multiples - Prime and Composite numbers - Highest common factor - Lowest common multiple 	A game of arrange the cards from 1 to 9 Identify and encircle the factors of the corresponding number in sheet.
Aug.	4. Fractions 5. Decimals	<p>Students will learn the concepts of addition subtraction, multiplication and division of fractions.</p> <p>Students will understand the concept of decimals</p> <ul style="list-style-type: none"> - Reading and writing - Expanded form - Like and unlike - Comparison - Addition and subtraction - Multiplication and division 	Fill in colours in the diagram to represent fractions Calculate the decimal fraction of given numbers.
Sept	6. Percentage	Students will understand the topic of	Find the percentage of given

Month	Topic	Concept	Activity
		percentage - Converting a fraction into percentage and vice versa - Converting percentage into a decimal number - Finding percentage - Problem sums	numbers
Oct	7. Geometry	Students will learn the concept of Geometry - Point, line, line segment and ray - Types of lines - Angles, polygons, triangles, circles	Show angle with the help of different objects.
Nov	8. Perimeter, Area and Volume	Students will understand the concepts of Perimeter, area and volume	Measure different objects and find perimeter and area.
Dec	9. Measurements	Students will understand the concept of metric system. - Conversion and operation on metric measures - Average	Measure different objects with the help of measuring tape.
Jan.	10. Time 11. Money	Students will understand the concepts of time and calendar - Conversion of bigger units of time into smaller units and vice - versa - Addition and subtraction of time - Adding and subtracting days Students will learn the concepts of money through unitary method and profit and loss	An activity by real clock and calendar Role play
Feb.	12. Symmetry and patterns	Students will learn the concepts of symmetry tessellation, reflection and patterns	Make different types of patterns in your note book.
Mar.	13. Data Handling	Students will understand the topic of data handling through data, frequency, bar graph and circle graph.	Make various Bar graph data

5 - S.S.

Month	Topic	Concept	Activity
June	Ch-1 Globes and maps Ch-2 latitudes and longitude	To know about the shape and size of the earth. Students will learn about the imaginary lines that appear on a globe or a map.	Map work. Name the latitudes as shown on the globe.
July	Ch-3 Weather and climate Ch-4 Major landforms Ch-5 Natural Resources	Students will learn about the difference between weather and climate. Students will learn about various landforms on the earth. Students will learn about renewable and non-renewable resources.	Find the average maximum and minimum temperatures for the two Months. Collect ten pictures of any landform and find the names of all ten of them Make a list of the ways in which resources are being wasted in your neighbourhood.
Aug	Ch-6 The Land of Dense forest (Democratic Republic of Congo) Ch-7 The land of Ice and Snow greenland.	Student will learn about the location and climate of the equatorial region. Students will learn about the places in the Tundra region.	Write a paragraph about the vegetation in the Democratic Republic of Congo. Discuss among your classmates the lifestyle of the people of greenland.
Sept	Ch-8 The Land of the Hot Sun Saudi Arabia)	Students will learn about the life style and major occupation of the people living in Saudi Arabia.	Try to collect some pictures depicting the life style of the people living in these regions.
Oct	Ch-9 The grasslands prairies	Students will learn about the major grasslands of the world.	Make a project report on the grass lands of Australia.
Nov	Ch-10 Pollution	Students will learn about the causes of air, soil, water and noise pollution.	Collect the pictures of different types of pollution.
Dec	Ch-11 Saving the Environment Ch-12 Natural Disasters Ch-13 Transmitting knowledge	Students will learn about the environment. Students will know about the causes of natural disasters. Students will learn about the origin of Numbers.	Make a list of 5 things you can reuse and reduce garbage. Prepare a report on the cloud burst at Leh in August 2010 collect pictures from Newspapers Collect information on the significant stages of development in the history of printing since the time of Gutenberg
Jan	Ch-14 Communication Ch-15 Transport Ch-16 Inventions and Discoveries	Students will learn about the importance of communication. Students will learn about different modes of Transport. Students will learn about inventions and discoveries.	Collect pictures of different means of communication. Collect pictures of different modes of Transport. Collect information about Michael foraday

Month	Topic	Concept	Activity
Feb	Ch-17 Medicine Ch-18 Great world leaders Ch-19 Some Great Indians	Students will learn about the progress made in the field of medicine. Students will learn about the lives of great leaders of the world Students will learn about the contribution of indians in the fields of medicine, literature education and music	Prepare a first - aid Box Find out what happened in Jallianwala Bagh Find out the name of the musical instrument played by Ravi Shankar
Mar	Ch-20 British rule and the Revolt of 1857. Ch-23 Government Ch-24 United Nations	Students will know about how the British established their rule in India.
